

60-Minute Visual Timer with Magnetic Dry Erase Board

INSTRUCTIONS FOR USE

HOW TO USE YOUR 60-MINUTE VISUAL TIMER WITH MAGNETIC DRY ERASE BOARD

1. INSTALL 1 AA/1.5V BATTERY

The Time Timer 60-Minute Visual Timer operates on one (1) AA/1.5V battery. (Not Included). The battery cover is located on the back of the timer. You may need to remove your timer from the Dry Erase Accessory by gently pushing on the product from the back. Once removed, simply lift battery cover up from the bottom edge to insert AA battery into compartment. Close battery compartment by pressing closed until you hear a "click".

2. CHOOSE YOUR SOUND PREFERENCE (HIGH/LOW)

The timer itself is quiet—no distracting ticking sound—but you can choose the volume of the alert sound when time is complete. Simply use the high/low switch on the back of the timer to control audio alert volume.

3. INSERT YOUR TIMER INTO YOUR DRY ERASE BOARD ACCESSORY

Place your 60-Minute Visual Timer into the Dry Erase Board by inserting it into the cutout provided on the Dry Erase Board Accessory. Gently push all corners of the timer until flush with the Dry Erase Board Surface.

4. SET YOUR TIMER

Turn the center knob on the front of the timer counter-clockwise until you reach your chosen amount of time. The set knob can be set to any point on the timer face and can be manually moved clockwise or counter-clockwise without harming the mechanism. However, gentle handling will prolong the life of the timer.

5. COUNTDOWN

Immediately, your new timer will begin to countdown, and a quick glance will reveal the time left thanks to the high contrast disk and large, easy-to-read numbers.

6. STOP ALERT

When time has elapsed, your new timer will begin to beep continuously and progressively faster for one minute. To stop the audible alert, simply press the alert off button on the top of the timer.

TIP: Use the dry erase surface to keep your tasks organized. This multifunctional board is magnetic and serves as a message center. Attach special notes or favorite photos, alongside your to-do list and visual timer. Manage time-sensitive messages, create visual schedules, jot down to-do lists, and keep everyone on track.
